## IMPROVISATION for the Professional Actor

Improvisational acting is a technique that allows the actor to free their self from the persona they portray on stage or camera. This allows for the free flowing spontaneous creation process to take place. Improvisation has also become an essential part of most audition situations. Many of today's great actors have launched their careers through improvisational venues like **THE SECOND CITY** and **SATURDAY NIGHT LIVE**.

In this class the student actors will create a complete improvisational showcase which on week 10 will be performed in front of a live audience.

### Students will learn how to...

- ◆ Work as an ensemble cast
- ◆ Utilize character and scene development
- ◆ Tap into your creative mind bank
- ◆ Incorporate transitional tops and bottoms
- ◆ Spontaneously build sketches that will entertain an audience
